## LEAKLESS WATER PUMP

### TECHNICAL INFORMATION

### The leakless water pump has the following features.

- A stainless shaft.
- A new cast iron impeller, pinned to the shaft.
- Original style grease nipples. (*Dummy nipples*)
- No shaft end float possible.
- No greasing necessary.
- 3 sealed bearings.
- No gland packing to replace. *Gland nut, is a dummy nut. Do not touch.*
- A woodruff key, a cotter pin and castle nut supplied.
- A housing gasket. The white sealing deposit on the back of the pump, is best left on the pump housing to aid rust proofing and pump sealing.
- Housings are crack tested and painted "Engine Green".
- Pumps are fully guarantee for one year, to the original purchaser, providing the pump is not tampered with in any way.
- Early (small hole in housing) and later (large hole in housing), pumps are available.
- *All pumps are sold require an "exchange" housing. If a non acceptable housing is received, a core fee of \$45.00 will apply.*
- Exchange core required. *Prices are subject to change without notice.*
